Alexandria Gazette To farmers.

THURSDAY EVENING, MARCH 15.

A REMEDY FOR DRUNKENNESS .- A firm of wine merchants in London has been trying a novel experiment during the past year, with a view to helping the men in the employ of the company to keep sober. The theory on which the experiment is based is that drunkenness comes mainly from the habit of resorting to public houses, and that this habit is contracted almost as a matter of necessity by workmen having no where else to go during their dinner hour. So the firm provided a dining room and reading room, and a boiler for cooking potatoes; and there the men and boys now take their dinners. As one result of the corporate feeling promoted by intercourse with one another during the aoon bour, they have formed among themselves a library fund, out of which newspapers and magazines are provided for the reading room, and a deposit and loan bank, to which all the workmen are now subscribers.

Under this arrangement, as stated by the mer-Under this arrangement, as stated by the merchants in a letter to the Times, there has not been "a single instance of indiscretion or excets or anything approaching it in the matter of drink during the whole of the last year. Not above a rock has been the farmers of Maryland and Virginia in the last year. Not as of "Excelsior," it is their unanimous opina boy or man has been absent without leave, and every one has been in his place on the morning following our national holidays." The last mentioned fact, says the Pall Mall Gazette, is especially worth the attention of employers and it adds that "when men cease to find their pleasure in the public house during their dinper hour, there is at least a chance that they will not go to the public house to look for it when they have a day instead of an hour to themselves."-Examiner.

USETHE IMPERIAL FRENCH GREEN. This not poisonous; it is finer in texture; has more body, and is the most brilliant in the world. For sa B. F. PEAKE & CO., feb 26 187 King street,

ENCOURAGE HOME MANUFACTURE I am now manufacturing a good and cheap PAINT, of several colors, the body of which is equal to Lead and Oil, which for tin roofs, barns, stables, fences, &c., will be found very suitable as well as economical, and an improvement over other cheap mixed Paints now in the market. For brick walls with a northern exposure it will act as a preventive to dampness. For iron it makes a solid and lasting coating, impervious to moisure and a preventive of rust. Being of various shades of color, the cornice and trimmings can be painted to suit. This Paint has been used by one railroad company and by many of the farmers in this vicinity, and is highly recommended by all who have tried it. Price, single gallon, 75c. 10 gallons 65c per gal. 1 bbl, or 40 gallons, 60c per gal. Call and examine samples at 85 King st., under Sarepta Hall. W. F. CREIGHTON.
